

RediScreen™ - Ultra

Fecal Occult Blood Test Devices
with Enhanced Readability

5 NEW FOBT PRODUCTS!

100% Satisfaction Guarantee

A rapid, convenient, and qualitative method with both color enhanced sensitivity and readability

Qualitative guaiac paper test for detecting fecal occult blood. Available in triple and single slide configurations, developer bottles and tape form for in-clinic digital exams. All tests have positive and negative quality assurance monitors to ensure proper test performance.

RediScreen™-Ultra with Enhanced Readability

The all new RediScreen™-Ultra Fecal Occult Blood tests are formulated with ultra sensitive color development and enhanced readability. RediScreen-Ultra devices aid in the early detection of asymptomatic occult bleeding.

Ideal Use

- Routine office practice
- Routine laboratory and hospital testing
- Mass screening programs

Features and Benefits
